

## Estimator

Are you interested in joining a highly motivated and experienced estimating team as we continue on our growth trajectory? If you're a proven self-starter who sweat's the details, can easily juggle multiple projects while meeting all deadlines and you know print production flow... we're looking for You!!

**Brant InStore** is a single source provider of in-store sign programs. Small and large format litho, screen, digital, traditional dye sublimation, design, fulfillment, warehousing and distribution. This full suite of services combined with our unmatched “**speed to market**” capabilities and our turnkey design services are all delivered at some of the most competitive price models offered in the industry. At Brant InStore we strive to never let our customer down, it is part of our culture, and the very fabric that built Brant InStore into the industry leader it is today.

For you and Brant InStore to achieve success, we need you to be reliable, bring a positive attitude to the work-day challenges every day and be committed to your own personal development and our success.

In this important role you will:

- Develop detailed estimating knowledge of all the production and finishing equipment and procedures used here and a strong working knowledge of our estimating software
- Act as a resource to the sales team on complex products requiring specific knowledge
- Work in partnership with the estimating team selecting jobs from the common queue estimating necessary requirements and costs based on supplied standards/pricing
- Balance and manage your time between multiple ongoing quotes and RFQ's, assisting others on the team so that together we maintain high output levels
- Develop an understanding of our customer's requirements working with the sales team, our account managers and our production/finishing leaders
- Develop a strong knowledge of new technologies and processes and assist in the develop of new estimating tools to improve customer service
- Seek out pricing from vendors and suppliers, work with internal sources and formulate job cost estimates for digital, litho and screen projects

To make it to the short list you'll need:

- To be a guru at prioritizing and completing jobs, projects, RFQ's in a high-pressure environment all the while reacting swiftly to project alterations and adjustments
- Knowledge of large format digital, litho and screen printing and large format materials substrates and rolls gained in a commercial print environment or creative agency
- Knowledge of finishing methods, die cutting, POP displays, carton making, kitting and packaging
- Experience with print MIS software and expert knowledge of the MS Office suite of software
- Post secondary degree or diploma in graphic arts or related field e.g., Ryerson GCM
- To be meticulous, detailed & accurate

Have you been saying, "got it, done that" as you've read through this? Great, now send your pitch to George Sutton.
