

Flexographic Printing Press Operator

Location: Richmond Hill, ON

Job Type: Full Time

Shift: Monday - Friday from 3pm - 11pm.

Responsible for reproducing quality compliant print jobs for pressure sensitive labels and tags by evaluating mechanical and print variables in order to set up the press and run the Job according to the documented fingerprint conditions for each Job Ticket.

The Successful Candidate will be enrolled in and expected to complete FIRST operator certification as a condition of employment. The successful candidate will have to successfully complete a scored 3 part on press interview where they will:

- Demonstrate an efficiency in setting up tension, kiss impression, tooling and counters on a Mark Andy 2200
- Demonstrate an understanding of centre-line and the ability to set up plates, dies and substrates accordingly
- Demonstrate the ability to use a control strip and an X-Rite exact or 530 to evaluate register, impression, colour, TVI and density.
- Demonstrate a keen eye for recognizing, flagging and correcting non-conforming print
- Demonstrate a professional team first mentality.

Qualifications

- High school diploma or higher
- 1 year experience in flexographic printing
- FIRST Operator Certification Level 3
